# Restor-A-Finish®

## "Restore It - Don't Strip It!"

- Restores Color To Faded Wood Finishes
- Blends Out Scratches & Blemishes
- Removes White Heat Rings

### Will NOT Remove Existing Finish

With a simple wipe-on, wipe-off process, most finished wood surfaces that seem to need a complete refinishing job can be restored in a matter of minutes. Restor-A-Finish penetrates faded lacquer, shellac, or varnish finishes to bring back the original color, while it blends out white heat rings and water marks. Sun fade, oxidation, smoke damage, and most other blemishes can be quickly blended away. Follow up with Howard Feed-N-Wax or Citrus-Shield Paste Wax to help maintain the newly restored finish.

# Feed-N-Wax®

## Wood Polish & Conditioner

- Enhances the natural beauty and depth of grain in finished and unfinished wood
- Prevents drying and deterioration of all wood finishes
- Polishes all wood surfaces to a soft luster and protects with a coating of beeswax and carnauba wax
- Maintains the restored finish after using Restor-A-Finish
- Not intended for food-prep surfaces

Perfect for dry or water damaged cabinets.

Feed-N-Wax was developed to be the perfect follow-up to Restor-A-Finish when you want to maintain that “just-restored” look to your wood finish. Over time, wood furniture, cabinets, and especially antiques, tend to “dry out” and fade. Feed-N-Wax helps introduce conditioning oils that “feed” the wood, while leaving behind a protective coating of beeswax and Brazilian carnauba wax to polish and shine. Feed-N-Wax may be used whenever the wood or wood finish looks faded or dry.
